

Shane McDermott

Software Developer

[shanemcder.github.io](https://github.com/shanemcder) | 407-907-4457 | spmcdcr@gmail.com

PROFILE

Software engineer creating immersive multimodal applications. Project experience includes API integration, database-backed workflows, real-time audio visualization, and Unity development. Brings hands-on debugging, collaborative development, and a strong focus on problem solving.

EDUCATION

University of Central Florida | B.S. Computer Science | May 2026

Burnett Honors College | GPA: 3.6

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, C, C++, C#, Python, PHP, HTML, CSS

Tools and platforms: React, Node.js, Express, MongoDB, MySQL, PostgreSQL, Git, Jira, Android, Room, Unity, Maya, Canvas, Web Audio API

SELECTED SOFTWARE PROJECTS

TestPressing.net | React, TypeScript, Node.js, PostgreSQL **Present**

- Built a full-stack platform for artists to upload work-in-progress music, share tracks with friends, and publish music portfolios.
- Implemented signup and login, email verification, password recovery, and PostgreSQL-backed user accounts, tracks, and activity updates.
- Developed timestamped feedback, access-controlled audio sharing, and responsive playback with configurable clip start and end times.

St. Augustine Forts VR | Unity, C#, Maya **April 2026**

- Worked with a team of 7 members to finish the St. Augustine Forts VR project.
- Served as lead 3D modeler and Unity developer for an interactive exploration of historic forts.
- Created environment assets, implemented travel between forts, and optimized assets toward a solid framerate.
- Optimized the project by removing unnecessary files.

Taskmaster | Java, Android, Room, RecyclerView **November 2025**

- Developed a daily task planner with persistent storage, task creation and editing, categories, duration estimates, and progress tracking.
- Implemented database access methods and coordinated navigation across six activities.

EXPERIENCE AND LEADERSHIP

Resident Assistant **August 2023 – May 2026**

University of Central Florida

Orlando, FL

- Managed sensitive resident information using platforms such as StarRez, ErezLife, and Teams
- Mediated crises and resolved conflicts during on-call shifts, utilizing strong problem-solving skills to ensure the well-being and safety of over 700 residents in a fast-paced environment
- Planned and executed 10 diverse community-building events each school year, managing logistics, budgeting, and coordination to ensure seamless and engaging experiences for all participants
- Worked collaboratively with a team of 20 staff members to support and enhance the resident experience, fostering effective communication and teamwork to achieve shared goals and maintain a positive living environment
